### W O R K E X P E R I E N C E

#### Front End Developer | SIGSCAN, Toulouse JUNE 2024 - PRESENT

- Improved application stability** by resolving frequent runtime crashes (NullPointerExceptions, async errors, API integration issues), reducing production incidents and enhancing user trust.
- Delivered key product features** such as optimized navigation menus, responsive UI updates, saved filters, and consistent design themes, improving usability and user experience across Android and web apps.
- Enhanced performance and quality** by implementing automated testing (Cypress, JUnit), improving responsiveness in Angular apps, and integrating Sentry for proactive monitoring.

#### Bartender | ÔBoudupont, Toulouse 2021 - 2022

#### Project assistant | Service Volontaire International, Brussels 2020

#### Manager | Passion Aventure (kayak rental), Marcilhac 2013 - 2019

### E D U C A T I O N

#### Software Developer and Designer training (Professional Certification Level 6)

#### L.D.N.R, Labège 2023 - 2024

Gained hands-on experience in front-end and back-end development by delivering team projects from design to deployment, applying best practices in project management and system architecture.

#### Masters Degree in International Politics Toulon University 2018 - 2020

#### Bilingual History Degree (French-English) Jean Jaurès University, Toulouse 2013 - 2016
